

CONFIDENTIAL

12 April 1983

MEMORANDUM FOR: Chief, Technology Transfer Assessment Center
FROM: EA/DDCI
SUBJECT: Technology Transfer

At the 8 April NFIP overview session with the Senate Armed Services Committee, the DDCI found the Committee very interested in technology transfer and willing to be supportive. Within the next day or two would you, in coordination with [redacted] please provide the following:

25X1

- Any unclassified information on technology transfer that Committee members could get into the public domain. (They have already been provided the publication Soviet Acquisition of Western Technology, the HPSCI release, and [redacted] recent speech.)
- Suggestions of what we would like done that would not require legislation.
- Ideas on what legislation would be helpful.
- Identify any regulations that the Committee could help push within the Executive Branch.
- The list of 30 companies in this country that are Soviet fronts (this would have to come from the FBI; if you can't get it, the DDCI could make a call).
